Objective

My ambition is to become a leading consultant that help businesses to efficiently and profitably merge business goals with new technology and people ambitions. I am interested in a company that will provide me with the opportunity to develop myself in a variable, stimulating and rewarding environment. More than 10 years of consulting within IT Management at Accenture, Connecta and PA Consulting, working with IT strategy, IT transformation and in various business solution advisory roles has given me a broad understanding on how IT organizations should be analyzed and transformed to be cost efficient and aligned to the ambitions derived from the corporate strategy.

Leading Proficiencies

- I have both project and program management experience from 8 years of delivering complex project assignments and large portfolio management systems
- I have worked extensively with Organizational Change Management in large ERP and other business solutions analysis and implementation projects and I have been leading the School of Change Management yearly program at Connecta
- I have excellent communication skills
- I have studied and worked in London, Singapore, Helsinki, Copenhagen and Bangalore and have therefore good understanding in how different cultures affects and influence business operations
- In high school I combined schoolwork with 18 hours of basketball training per week which early taught me the importance of solidarity, teamwork, prioritizing and advanced planning
- I am a very goal oriented person who finds new challenges rewarding and therefore, will never back down from any type of assignment
- I played in the Sweden national basketball team and I today play golf and basketball regularly

Degree

2003–2008 **Master of Science, Media technology**, 180 credits.
